

Toss your Transpass – right into our recycling bins.

As the Maine Turnpike Authority implements the new E-Z Pass electronic toll collection system on Feb. 1, we also will begin collecting and recycling Transpass devices.

Electronic toll collection has helped to reduce air pollution in Maine. Let's continue to protect Maine's environment by recycling as many Transpass devices as possible. Starting February 7, the Maine Turnpike Authority will launch a Transpass collection and recycling program. Please remove the batteries from your Transpass and drop it off at one of the convenient collection sites listed below. You may also send your device to: **Maine Turnpike Authority, 430 Riverside Street, Portland Maine 04103**, or drop it by our Customer Service Center at 400 Riverside Street, Portland Maine. For more information, please call us at **1-888-MTA-PASS** or visit www.maineturnpike.com.
